

BlueSun Health Plan - Prior Authorization Denial

Date: April 1, 2026

Member: Jane A. Doe

Member ID: BS-A1234567

Date of Birth: May 14, 1978

Plan: BlueSun Health Premium HMO

Provider: Dr. Maria Chen, MD (NPI 1234567890)

Dear Jane A. Doe:

We are writing to inform you that your prior authorization request for semaglutide (Ozempic) 1mg weekly subcutaneous injection has been DENIED.

Reason for denial: Not medically necessary. Member does not meet all criteria for GLP-1 receptor agonist therapy per plan medical policy MEDPOL-GLP1-v3 (effective January 1, 2026). Denial codes: MN-12, STEP-03.

Specifically: documentation does not establish that the member has completed the required six months of supervised diet, exercise, and behavior-modification program before pharmacologic therapy.

You have the right to appeal this decision within 180 days. Appeals should reference policy MEDPOL-GLP1-v3 and include supporting clinical documentation.

Sincerely,

BlueSun Health Plan
